The Rivington Brewery Pop-up Tap is on a left turn as you cross the reservoir on Horrobin Lane away from the main Cunliffe Farm where the brewery is based. This will be the first pop-up near the source of Ben Stubbs & Mike Richardson's delicious beers, which mainly evoke a farmhouse style, echoing traditional British brewing and Belgian styles. Beers will be available in both cask and key keg conditioned forms. Food will also be available.

**RIVINGTON
BEER WALK**

Saturday June 17th 2017

Walkers are to gather at the forecourt of the Brewery Bar (Blackedge) for a 1.30pm start. There will be return walks, but participants may wish to taxi share a return to the Crown roundabout in Horwich, which should cost approximately £8 per taxi. The first part of the walk will involve road crossing and we need to maintain highway safety at all times. All walkers are encouraged to stick to the published pathway to the Rivington venues and to not venture too close to the water (to avoid a classic horror film scenario. This is a walk and the organisers do not encourage, and strongly disapprove of, drink driving.
